

Present:

Sustainable Forestry and Restoration Forestry:

Managing the Forest for the Long Term

A Rainbow Ridge Forest Stewardship Workshop

JUNE 27TH, 2013 @ 5:00P.M.

LOCATION: SISSON MUSEUM

What do the terms Sustainable Forestry and Restoration Forestry mean? How do these practices impact the use, health, and fire resiliency of the forests we live in? Join us for a discussion with Danielle Lindler, a local forestry consultant and RPF, and Marty Main, of the Ashland Forest Restoration Project on these two important forest practices and how they factor in to our ecological and economic health.
