

*Present:*

# Rocks and Trees:

The Geologic and Ecological Forces Shaping  
Siskiyou County

*A Rainbow Ridge Forest Stewardship Workshop*

SEPT. 27<sup>TH</sup>, 2013 @ 5:00P.M.

LOCATION: SISSON MUSEUM

From mountain peaks to valley floors, from towering forests to arid desert, Siskiyou County is home to a diversity of landscapes and ecosystems. This September, Dr. Bill Hirt and Dr. Robert Fernau take us on a tour of the natural forces that are responsible for the views and habitats we see, enjoy and depend on every day.
