The Siskiyou Arboretum’s NATIVE PLANT NURSERY is a project of Siskiyou Gardens, Parks and Greenway Association in partnership with Shasta Valley Resource Conservation District.

Our goal is to grow native plant species for home gardens and public restoration projects and to educate about the beauty and water conservation benefits of native plant culture.

Our Native Plant Nursery is in Yreka on Ranch Lane, on the right just past Greenhorn Grange and before the entrance to Lower Greenhorn Park.

Growing native plants for home gardens and habitat restoration in Siskiyou County since 2006.

Funding for this brochure provided by the Siskiyou County Resource Advisory Committee (RAC).
CONTRACT GROWING:
The Nursery is actively seeking contracts and partners for restoration projects. We welcome inquiries from other nurseries, landscapers and project coordinators for native planting. Our plants are grown from locally collected seed stocks and cuttings. We pride ourselves on propagating healthy high quality plants within two years for most contract orders.

Orders are subject to a minimum 10% deposit.

VOLUNTEERS:
The Nursery is funded through a combination of plant sales and grants. Volunteers are vital to our success. Contact Tammy or Ayn to sign up.

PLANTS:
Conifers
Deciduous trees
Shrubs
Grasses
Perennial
wildflowers
Riparian and dryland plants

PRICES:
WHOLESALE prices for existing nursery stock. We will provide a quote for any order of existing nursery stock over $500.

WHOLESALE prices for contract growing. Orders over $500 will receive our priority growing status. A down payment or deposit may be required based on the size of the contract.

RETAIL prices for plant sales and small orders. Plants range in price from $4 to $20, based on pot size and growing time. Plant sales are held each spring and fall or may be purchased from existing inventory by appointment all year.
